

St. Mary Street Office Renovation Toronto, Ontario

BEFORE

BEFORE

AREA 1000 sf
BUDGET \$ 18,000
STATUS Completed 2005

The challenge for this project was to convert a dreary 1950's office space into a vibrant and inspiring studio for Lapointe Architects. The renovations included the removal of all existing (and sometimes unhealthy) finishes to expose the raw concrete structure. Vibrant colour and vast operable windows balance the neutral concrete floors and ceilings.
